PROJECT EXPERIENCE

Therapy Tracker — Occupational Therapy Resource

- This Capstone project was the culmination of what I learned in LaunchCode's LC101 Course, combining a robust Java backend, utilizing MySQL for database management, with an AngularJS frontend.
- The site allows Occupational Therapists to catalogue exercises and track how patients respond to them over time, offering an overview of patient growth.

WORK EXPERIENCE

Dual-Rate Floor Manager — River City Casino, St. Louis

November 2009 - August 2019

- Managed table games dealers to ensure proper procedures were followed, maintaining these standards across all games.
- Developed excellent interpersonal skills as well as the ability to respond calmly and prioritize decisions in high-stress situations.

3D Modeler — HOK Architecture, St. Louis

February 2014 - August 2015

- Coordinated with HOK's architects, producing high quality physical models utilizing laser cutting techniques with wood, plexiglas and metal.
- Adhered to strict deadlines and adapted quickly to design changes as they arose.

Interior Designer — Helix Architecture + Design, Kansas City

Month 2011 - Month 2012

- Collaborated with the architects at Helix on a corporate interiors project for Blue Cross Blue Shield in Kansas City.
- Created design documents in AutoCad and Revit to be used by architects and contractors and translated 2D drawings to 3D renderings for use at client presentations.

EDUCATION

LaunchCode, LC101 Programming Course — 2019

Kansas State University, Masters, Interior Architecture — 2009
